

Whitepaper

Audited by:

ISOMA is an online crowdfunding platform project based on blockchain technology. That allows individuals to invest directly into real projects funds using their cryptocurrency balances. The goal of the project is to create a system that facilitates entrepreneur to get initial funding for their project. Enabled by smart contracts, the platform will allow routine dispersion of dividends.

Disclaimer: This is a community driven project, which mean everyone need to work hard together and spread ISOMA like a virus or nothing going to happen. Let's create a supportive and motivated community of holders who are ready to work hard, hustle, contribute & risk it all for our one common goal! Together, we can launch ISOMA to the Moon and beyond! Please understand ISOMA is high risk investment. Before we build all the utilities, ISOMA was initially created as a little teams. ISOMA make no promises and is not responsible for any losses or errors. Use at your own risk.
